James Zhang

Full-Stack Software Developer

Jilin, China
james1124999@gmail.com
jamesbusiness0316@gmail.com

PROFESSIONAL SUMMARY

Highly skilled Full-Stack Developer with over 10 years of experience specializing in AI, machine learning, bot development, automation, web scraping, data processing and web development. Proven expertise in building scalable applications, deploying AI-powered solutions, and automating data pipelines, with a strong foundation in Python, C#, and web technologies. Adept at leveraging innovative technologies to solve complex problems and deliver impactful results.

EXPERIENCE

FAW Group Co Ltd Changchun, China - Senior Full-Stack Developer

July 2023 - PRESENT

- Architected and deployed AI-driven image processing modules for defect detection using Python, TensorFlow, and OpenCV, achieving 95% accuracy.
- Managed a team of 4 developers working on web scraping automation and data pipelines, ensuring timely delivery and data accuracy.

FAW Group Co Ltd Changchun, China - Full-Stack Developer

April 2018 - June 2023

- Developed image recognition features using Python, OpenCV, and TensorFlow for an AI-powered quality control system in manufacturing.
- Built internal desktop applications using C# and VB.NET to streamline reporting processes, reducing report generation time from hours to minutes.
- Deployed machine learning models into production environments, optimizing performance and accuracy for customer recommendations.

FAW Group Co Ltd Changchun, China - **Junior Developer / Entry-Level**

September 2015 - March 2018

- Developed a Python script using BeautifulSoup and Selenium to automate data extraction from multiple e-commerce websites, reducing manual effort by 90%.
- Built and maintained a small web application using PHP and MySQL for internal task management.

EDUCATION

Bachelor of Science in Computer Science

Tsinghua University, Beijing, China

Graduated: 2015

- Focused on Artificial Intelligence, Machine Learning, and Software Engineering.
- Completed coursework in Data Structures, Algorithms, Computer Vision, and Deep Learning.
- Conducted a project on image processing using OpenCV and Python, applying machine learning techniques for object detection.
- Engaged in self-driven learning of web technologies including MERN stack and cloud deployment.

SKILLS

- **Languages:** Python, C/C++/C#, JavaScript (Node.js, React, Angular), PHP, VB.NET
- **Frameworks & Libraries:** MERN, Flask, Django, ASP.NET, Laravel
- **AI & Machine Learning:** TensorFlow, Keras, scikit-learn, OpenCV, PyTorch
- **Web Scraping:** BeautifulSoup, Scrapy, Selenium
- **Image Processing:** OpenCV, PIL/Pillow, OCR
- **Data Processing & Automation:** Data cleaning, ETL pipelines, scripting for task automation, workflow orchestration

- **Bot Development:** Building chatbots, automation bots, integration with messaging platforms (e.g., Telegram, Messenger)
- **Databases:** MySQL, MongoDB, SQL Server, PostgreSQL, SQLite
- **Tools & Platforms:** Git, Docker, AWS, VS Code, Visual Studio

LANGUAGES

- **Chinese:** Native or Bilingual Proficiency
- **English:** Full Professional Proficiency
